

# Creating Sales Orders in Praxis

---

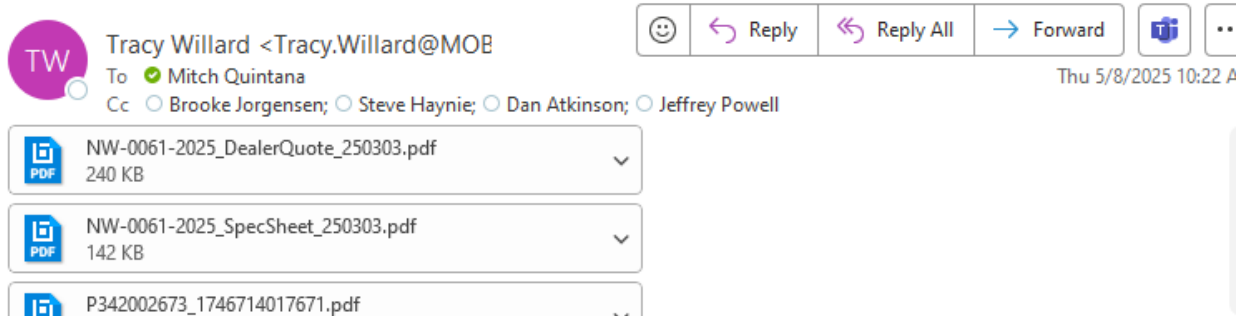

## *Outline of process:*

---

- 1. Verify price matches what was quoted.*
  - 2. Discuss price with manager if quote is older than 30 days.*
  - 3. Save Purchase Order and email chain to the sales folder.*
  - 4. Mark the building as sold in Praxis.*
  - 5. Fill out the Building Order Sheet and Sales Release in Praxis.*
  - 6. Fill out the building handoff documents which include the Project Coordinator Handoff Document, Long Lead Form, and Color Selection Sheet.*
  - 7. Send the Project Coordinator Handoff Document to the Project Coordinator.*
-

1. When we receive a PO, start by verifying that the price on the PO matches what we have in Praxis. If this PO is sent via DocuSign or another document signing service, ask the sender to make the Sales Manager the signer if you are not the Manager. More commonly, you'll see a PO email like the one below:

## New Order PO R342002673 // Custom Restroom Trailer Fluor Marine Propulsion- INL 24.

Hey, Mitch.

Attached is the PO for Steve's Fluor Marine Propulsion Restroom Facility. Please let us know if you need anything else. Thanks and have a wonderful day!

Tracy Willard

Project Coordinator | Mobile Modular

t: 912.309.9913 | [tracy.willard@mobilemodular.com](mailto:tracy.willard@mobilemodular.com)

2. Open the PO and compare the PO price and version numbers in Praxis match the PO. In the image below the base price matches. The customer supplied the quote with the PO to verify version number. Remember that any change gets rounded to the nearest whole dollar on the quote in Praxis when printed.
